SPECIFICATIONS & DETAILS

- **HEAVY-DUTY CONSTRUCTION:**
Weighs 500KG for maximum security.
- **DIMENSIONS:**
L69 x W63 x H175 CM.
- **MULTI-TIER INTERNAL SHELVING:**
Adjustable system with secure bottom drawer.
- **BEIGE GOLD FINISH:** Durable color with advanced locking mechanism.

Safety & Compliance

Professional-Grade Security & Compliance

- **Hazmat Warning Signage:** Clear, high-visibility danger and stop signs signs for authorized personnel only.
- **Fire Alarm System:** Integrated fire detection and alarm system for immediate response.
- **Secure Access Control:** Digital access doors and secure lockers to prevent unauthorized entry.
- **International Standards:** Built to comply with strict hazardous materials storage regulations.

Deployment & Scalability

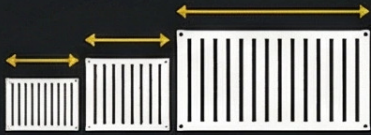

Flexible, rapid, and seamless integration

- Flexible deployment options: single unit or multi-unit configurations
- Suitable for industrial sites, government facilities, and commercial premises
- Rapid installation and relocation capabilities
- Seamless integration with existing infrastructure

Technical Specifications

AVAILABLE SIZES

6ft, 10ft, 20ft, 40ft configurations

STRUCTURAL MATERIALS

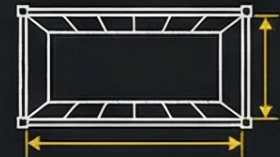

- Heavy-duty corrugated steel, reinforced flooring

POWER REQUIREMENTS

- Standard industrial power hookups for AC, lighting, and security systems

DIMENSIONS

- Standard ISO container dimensions (e.g., 2.40m width as shown in interior view)
